

Rates are down, savings are up.

Markets are shifting and mortgage rates are down—giving you a valuable window of opportunity. Now's the time to reach out and help make the most of the changing landscape.

Don't forget—you could save 1% of your loan amount on your next home or refinance. For example, with a \$350,000 loan, that's \$3,500 off your closing costs.¹

Lower rates can offer you:

- A lower monthly payment on a new home loan.
- The ability to refinance for better terms, or to lower your existing payment.
- Easier access to your home's equity for renovations, debt consolidation, or other expenses.
